<input checked="" type="checkbox"/> Vital signs-Post Thoracentesis	Routine, Every 15 min For 2 Hours Post Thoracentesis
--	---

Nursing Post Procedure

<input checked="" type="checkbox"/> Assess operative site	Routine, Now then every 8 hours Assess for bleeding
<input checked="" type="checkbox"/> Assess quality of respirations	Routine, Once Assess: quality of respirations
<input checked="" type="checkbox"/> Elevate HOB 45 degrees	Routine, Until discontinued, Starting S Head of bed: 45
<input checked="" type="checkbox"/> Notify MD O2 Sats less than 92%	Routine, Until discontinued, Starting S

Medications

Labs

Laboratory Today

<input type="checkbox"/> Lactate dehydrogenase, LDH	Once
<input type="checkbox"/> Protein, total	Once
<input type="checkbox"/> Basic metabolic panel	Once
<input type="checkbox"/> Cholesterol, total	Once
<input type="checkbox"/> Triglycerides	Once
<input type="checkbox"/> Amylase	Once
<input type="checkbox"/> Albumin	Once

Hematology

<input type="checkbox"/> Hematocrit, body fluid	STAT For 1 Occurrences Specimen Source:
---	--

Pleural Fluid for Cytology

<input type="checkbox"/> Cytology (non-gynecological) request	A paper requisition will print when this order is submitted. The printout must accompany the specimen to the lab.
<input type="checkbox"/> Pneumocystis carinii qPCR - Viracor	Once Specimen Source: Pleural Fluid

Pleural Fluid - Chemistry

<input type="checkbox"/> Protein, body fluid	Once Specimen Source:
<input type="checkbox"/> Glucose, body fluid	Once Specimen Source:
<input type="checkbox"/> Lactate dehydrogenase, body fluid	Once Specimen Source:
<input type="checkbox"/> Body fluid cell count with differential	Once Specimen Source:
<input type="checkbox"/> Amylase, body fluid	Once Specimen Source:

<input type="checkbox"/> Albumin, fluid	Once Specimen Source:
<input type="checkbox"/> Creatinine, body fluid	Once Specimen Source:
<input type="checkbox"/> Triglycerides, body fluid	Once Specimen Source:
<input type="checkbox"/> Rheumatoid factor, fluid	Once Specimen Source:
<input type="checkbox"/> pH, body fluid	Once Specimen Source:
<input type="checkbox"/> Pleural fluid, CA125	Once Pleural fluid, CA125

Pleural Fluid - Microbiology

<input type="checkbox"/> AFB stain	Once, Pleural fluid
<input type="checkbox"/> AFB culture	Once, Pleural fluid
<input type="checkbox"/> Aerobic culture	Once, Pleural fluid
<input type="checkbox"/> Anaerobic culture	Once, Pleural fluid
<input type="checkbox"/> Gram stain	Once, Pleural fluid
<input type="checkbox"/> Mycoplasma pneumoniae by PCR	Once Specimen Source:
<input type="checkbox"/> Fungus culture	Once, Pleural fluid

Cardiology

Imaging

X-Ray

<input type="checkbox"/> Chest 1 Vw Portable	Routine, 1 time imaging For 1
<input type="checkbox"/> Chest 2 Vw	Routine, 1 time imaging For 1

US

<input type="checkbox"/> US Chest	Routine, 1 time imaging For 1
<input type="checkbox"/> US Thoracentesis With Imaging	Routine, 1 time imaging For 1
