Red Blood Cells

Prepare RBC STAT  
Transfusion Indications:  
if (answer = Other (Specify))  
Other indication:  
Transfusion date:

---

Transfuse RBC STAT  
Transfusion duration per unit (hrs):

Platelets

Prepare platelet pheresis STAT  
Transfusion Indications:  
if (answer = Other (Specify))  
Other indication:  
Transfusion date:

---

Transfuse platelets STAT  
Transfusion duration per unit (hrs):

Fresh Frozen Plasma

Prepare fresh frozen plasma STAT  
Transfusion Indications:  
if (answer = Other (Specify))  
Other indication:  
Transfusion date:

---

Transfuse fresh frozen plasma STAT  
Transfusion duration per unit (hrs):

Cryoprecipitate

Prepare cryoprecipitate STAT  
Transfusion Indications:  
if (answer = Other (Specify))  
Other indication:  
Transfusion date:

---

Transfuse cryoprecipitate STAT  
Transfusion duration per unit (hrs):

**IV Fluids**

**IV Fluids**

sodium chloride 0.9 % infusion 250 mL, intravenous, at 30 mL/hr, continuous  
Administer with blood
