

## Medications

## Cardiac nuc med and stress test

<input type="checkbox"/>	regadenoson (LEXISCAN) injection	0.4 mg, intravenous, once, For 1 Doses
<input type="checkbox"/>	adenosine (diagnostic) (ADENOSCAN) infusion	0.84 mg/kg, intravenous, for 6 Minutes, once, For 1 Doses
<input type="checkbox"/>	DOBUTamine (DOBUTREX) 1 mg/mL in dextrose 5% 100 mL infusion	intravenous, once, For 1 Doses
<input type="checkbox"/>	DOBUTamine (DOBUTREX) infusion 1 mg/mL	intravenous, once, For 1 Doses
<input type="checkbox"/>	atropine injection	intravenous, once, For 1 Doses
<input type="checkbox"/>	dipyridamole (PERSANTINE) injection	intravenous, once, For 1 Doses
<input type="checkbox"/>	dipyridamole (PERSANTINE) injection	0.14 mg/kg/min, intravenous, once, For 1 Doses Max dose 60 mg.
<input type="checkbox"/>	sodium chloride 0.9 % infusion	intravenous, once, For 1 Doses
<input type="checkbox"/>	nitroglycerin (NITROSTAT) SL tablet	0.4 mg, sublingual, once, For 1 Doses
<input type="checkbox"/>	aminophylline injection	intravenous, once, For 1 Doses
<input type="checkbox"/>	albuterol (PROVENTIL HFA; VENTOLIN HFA) inhaler	2 puff, inhalation, once, For 1 Doses
<input type="checkbox"/>	albuterol (PROVENTIL) nebulizer solution	nebulization, once, For 1 Doses Aerosol Delivery Device:
<input type="checkbox"/>	ondansetron (ZOFTRAN) injection	4 mg, intramuscular, once, For 1 Doses

## Nuc only

<input type="checkbox"/>	Tc 99m sestamibi (CARDIOLITE) injection kit	20 millicurie, intravenous, once in imaging, isotope, For 1 Doses
<input type="checkbox"/>	aminophylline injection	intravenous, once in imaging
<input type="checkbox"/>	technetium labeled red blood cells (ULTRATAG) injection	intravenous, once in imaging, isotope, For 1 Doses
<input type="checkbox"/>	thallous chloride TI-201 (201 THALLIUM) injection	4 millicurie, intravenous, once in imaging, isotope, For 1 Doses
<input type="checkbox"/>	sodium pertechnetate (99mTc04) injection	intravenous, once in imaging, isotope, For 1 Doses
<input type="checkbox"/>	Tc 99m pyrophosphate (TECHNESCAN) injection	30 millicurie, intravenous, once in imaging, isotope, For 1 Doses
<input type="checkbox"/>	Tc 99m sestamibi (CARDIOLITE) injection kit	20 millicurie, intravenous, once in imaging, isotope, For 1 Doses
<input type="checkbox"/>	kit prep of Tc-99m-tetrofosmin (MYOVIEV) recon soln	intravenous push, once in imaging, isotope
<input type="checkbox"/>	iobenguane sulfate I-123 (ADREVIEW) injection	10 millicurie, intravenous, once in imaging, isotope, For 1 Doses

## Contrast

<input type="checkbox"/>	gadoterate meglumine injection solution	intravenous, once, For 1 Doses
<input type="checkbox"/>	gadopentetate (MAGNEVIST) 20 mL vial solution	intravenous, once, For 1 Doses
<input type="checkbox"/>	gadofosveset (ABLAVAR) injection	10 mL, intravenous, once, For 1 Doses
<input type="checkbox"/>	gadobutrol (GADAVIST) 10 mL vial solution	10 mL, intravenous, once, For 1 Doses
<input type="checkbox"/>	gadopentetate dimeglumine (MAGNEVIST) 50 or 100 mL vial solution	intravenous, once, For 1 Doses
<input type="checkbox"/>	perflutren lipid microspheres (DEFINITY) infusion	intravenous, once, For 1 Doses
<input type="checkbox"/>	perflutren protein-a microspher (OPTISON) injection	2 vial, intravenous, once, For 1 Doses
<input type="checkbox"/>	ferumoxylol (FERAHEME) injection	510 mg, intravenous, once, For 1 Doses Feraheme is to be dispensed as Floor Stock for MRI Contrast Agent - Please DO NOT deny. This is an approved off-label use for Feraheme for both inpatient and outpatient. This medication is RESTRICTED to administration in the Outpatient setting. Do you attest that the administration of this medication is in an outpatient setting? Is this an ESRD Patient?
<input type="checkbox"/>	gadoterate meglumine (DOTAREM) injection	intravenous, once, For 1 Doses

## Beta Blocker

<input type="checkbox"/> metoprolol tartrate (LOPRESSOR) tablet	25 mg, oral, once, For 1 Doses HOLD parameters for this order: Contact Physician if:
<input type="checkbox"/> metoprolol (LOPRESSOR) 5 mg/5 mL injection	5 mg, intravenous, once, For 1 Doses HOLD parameters for this order: Contact Physician if:
<input type="checkbox"/> clonIDINE (CATAPRES) tablet	oral, once, For 1 Doses HOLD parameters for this order: Contact Physician if:
<input type="checkbox"/> esmolol (BREVIBLOC) injection	intravenous, once, For 1 Doses
<input type="checkbox"/> diltiazem (CardIZEM) injection	0.25 mg/kg, intravenous, once, For 1 Doses

### Pain

<input type="checkbox"/> acetaminophen (TYLENOL) tablet	oral, once, For 1 Doses
<input type="checkbox"/> morPHINE 2 mg/mL injection	intravenous, once, For 1 Doses
<input type="checkbox"/> hydromorPHONE (DILAUDID) injection	intravenous, once, For 1 Doses
<input type="checkbox"/> HYDROcodone-acetaminophen (NORCO) 5-325 mg per tablet	1 tablet, oral, once, For 1 Doses
<input type="checkbox"/> HYDROcodone-acetaminophen (NORCO) 7.5-325 mg per tablet	1 tablet, oral, once, For 1 Doses
<input type="checkbox"/> HYDROcodone-acetaminophen (NORCO 10-325) 10-325 mg per tablet	1 tablet, oral, once, For 1 Doses
<input type="checkbox"/> traMADol (ULTRAM) tablet	50 mg, oral, once, For 1 Doses

### Allergic Reactions

<input type="checkbox"/> aminophylline injection	intravenous, once, For 1 Doses
<input type="checkbox"/> dextrose solution	intravenous, once, For 1 Doses
<input type="checkbox"/> atropine injection	intravenous, once, For 1 Doses
<input type="checkbox"/> nitroglycerin (NITROSTAT) SL tablet	0.4 mg, sublingual, once, For 1 Doses
<input type="checkbox"/> diphenhydrAMINE (BENADRYL) injection	25 mg, intravenous, once, For 1 Doses
<input type="checkbox"/> diphenhydrAMINE (BENADRYL) tablet	25 mg, oral, once, For 1 Doses
<input type="checkbox"/> ondansetron (ZOFTRAN) injection	4 mg, intramuscular, once, For 1 Doses
<input type="checkbox"/> ipratropium (ATROVENT) 0.02 % nebulizer solution	0.5 mg, nebulization, once, For 1 Doses Aerosol Delivery Device:
<input type="checkbox"/> hydrocortisone sodium succinate (Solu-CORTEF) 100 mg/2 mL injection	intravenous, once, For 1 Doses
<input type="checkbox"/> furosemide (LASIX) tablet	20 mg, oral, once, For 1 Doses

### Sedation

<input type="checkbox"/> ALPRAZolam (XANAX) tablet	oral, once, For 1 Doses Indication(s): Other Specify: Sedation
<input type="checkbox"/> LORAZepam (ATIVAN) tablet	0.5 mg, oral, once, For 1 Doses Indication(s): Sedation
<input type="checkbox"/> LORAZepam (ATIVAN) injection	0.5 mg, intravenous, once, For 1 Doses Indication(s): Sedation
<input type="checkbox"/> MIDAZolam (VERSED) injection	1 mg, intravenous, once, For 1 Doses Indication(s): Sedation
<input type="checkbox"/> fentaNYL (SUBLIMAZE) injection	12.5 mcg, intravenous, once, For 1 Doses
<input type="checkbox"/> promethazine (PHENERGAN) intraMUSCULAR injection	12.5 mg, intramuscular, once, For 1 Doses

### Reversal Agent

<input type="checkbox"/> naloxone (NARCAN) 0.4 mg/mL injection	intravenous, once, For 1 Doses
<input type="checkbox"/> flumazenil (ROMAZICON) injection	intravenous, once, For 1 Doses

### Miscellaneous

<input type="checkbox"/> famotidine (PEPCID) tablet	20 mg, oral, once, For 1 Doses
<input type="checkbox"/> sodium chloride 0.9 % infusion	intravenous, once, For 1 Doses
<input type="checkbox"/> digOXIN (LANOXIN) injection	intravenous, once, For 1 Doses

<input type="checkbox"/> codeine-guaifenesin (GUAIFENESIN AC) 10-100 mg/5 mL liquid	oral, once, For 1 Doses
<input type="checkbox"/> lidocaine (XYLOCAINE) 2 % jelly	Topical, once, For 1 Doses
<input type="checkbox"/> lidocaine HCl (XYLOCAINE) 2 % solution	mucous membrane, once, For 1 Doses
