

# Feb. 21 Epic Update Companion

## Radiologist

Updated: 1/26/21

On **Sunday, Feb. 21**, Epic will be updated with new features and enhancements to improve safety and quality of care, productivity and financial outcomes. This **Update Companion** contains details of the changes for your role. It is your sole training resource so be sure to review it carefully.

This **Update Companion** is prepared for the following job roles/functions:

- Radiologist
- Resident Radiologist
- Nurse Practitioner

## Top Changes for Role/Department:

1. [View Event Type and Order in Imaging Event Reports](#)
2. [COVID-19 Status Columns Show Infection Dates More Reliably](#)
3. [Filter Application Reports by Multiple Criteria](#)
4. [More Information Shown to Differentiate Among Secure Chat Users](#)
5. [See Admission Time from Storyboard](#)

*If you need help with Epic, be sure to visit our library of tip sheets in the Epic Learning Home. Simply press F1 on your keyboard while logged in to Epic.*

## Guided Playground Practice

*Exercises to help you prepare for the coming changes.*

After reviewing this document, use it as a guide to see the new features for yourself in the Epic Playground. Playground practice helps you prepare for the update, so you can stay focused on patient care.

Playground User ID: **IR01 thru IR10**  
Playground Password: **train**

Key workflows for you to practice include:

- Login to Epic Playground. Navigate to the Reading work list. View the new options with the layout button on the toolbar.
- Review the new **SmartPhrase Manager**.
  - To open the **SmartPhrase Manager** activity, chart search for **SmartPhrase Manager** or **My SmartPhrases**.
  - To open a **SmartPhrase** from a list, double-click the selected phrase.
  - To create a new **SmartPhrase** from a list, click the New User **SmartPhrase** button (previously named **New**).
  - To launch the **SmartPhrase** Lookup window, click the **SmartPhrase** Lookup button (previously named **Open**).
  - To sort on a column, click the column header.
- Go to the **Status Board** workspace and double click on any **Rita** patient to view the admission date. Note: Patient shows admitted for today.
- On the **Reading Work List** select **Layout** button to change the view of your list.

## Activity and Workspace

### Bookmark Outside Encounters in Chart Review

#### Key Benefits:

- More efficient
- Time saver

#### Description:

- See a broader view of your patient's care on the **Bookmarks** tab in **Chart Review** by reviewing and bookmarking encounters from outside organizations.

The screenshot shows the 'Chart Review' interface with the 'Encounters' tab selected. The table below lists several encounters. A red box highlights the bookmark icon in the left margin of the row dated 03/20/2020. A blue callout box points to this icon, containing the text 'Admission for tonsillitis|'. The table columns are 'When', 'Type', 'With', and 'Description'.

When	Type	With	Description
04/30/2020	Patient Message	FP - Shin, E	
04/26/2020	Office Visit	Audiology - McKinley, R	Abnormal otoacoustic emission
03/20/2020	ED	EM - Alice Tsui, MD	Acute tonsillitis due to infectio
03/05/2020	Office Visit	FP - Jones, J	Bilateral low back pain without

More Details About Possible Pregnancy Appear in Protocol Work List

Key Benefits:

- More efficient
- Time saver

Description:

- When protocolling an imaging exam from the **Protocol Work List**, the patient's sex and gender information is labeled in the **Protocol Details** report, with a note informing you which patients could become pregnant.

The screenshot shows the 'Protocol Details' report for patient Nova Kittle. The report is divided into several sections: Appointment, Patient Info, Reason for Exam, Ordering Comments, and Protocol Summary. The 'Patient Info' section is highlighted with a red box, showing the patient's legal sex as female and a note that it may be possible for this patient to become pregnant. The 'Reason for Exam' section shows 'Testing', and the 'Ordering Comments' section shows 'Not on file'. The 'Protocol Summary' section states 'This study doesn't have any protocol information'.

Appointment	Ordering Priority	Modifiers
7/24/20, 9:30 AM, WI UHD MAMMO	Routine	

**Patient Info**

Patient	Legal Sex: Female, 20 yrs, 5' 4" (1.626 m)/135 lb (61.2 kg) It may be possible for this patient to become pregnant
Allergies	Not on File
Medications	Esterified Estrogens 0.3 MG TABS

**Reason for Exam**

Testing

**Ordering Comments**

Not on file

**Protocol Summary**

This study doesn't have any protocol information

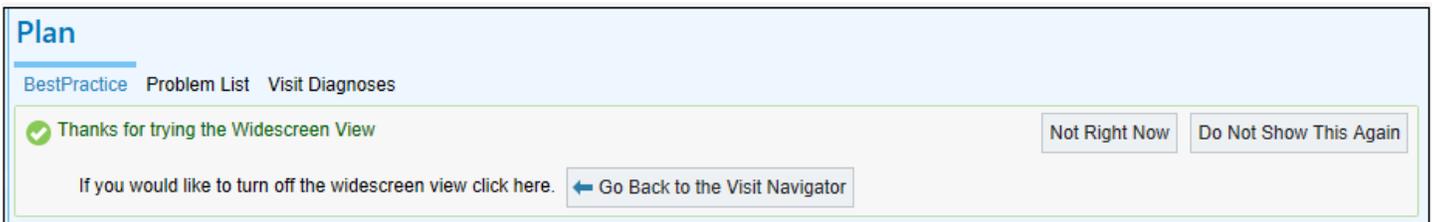

## Widescreen Banner No Longer Visible

### Key Benefits:

- Easily visible in **More Activities** menu

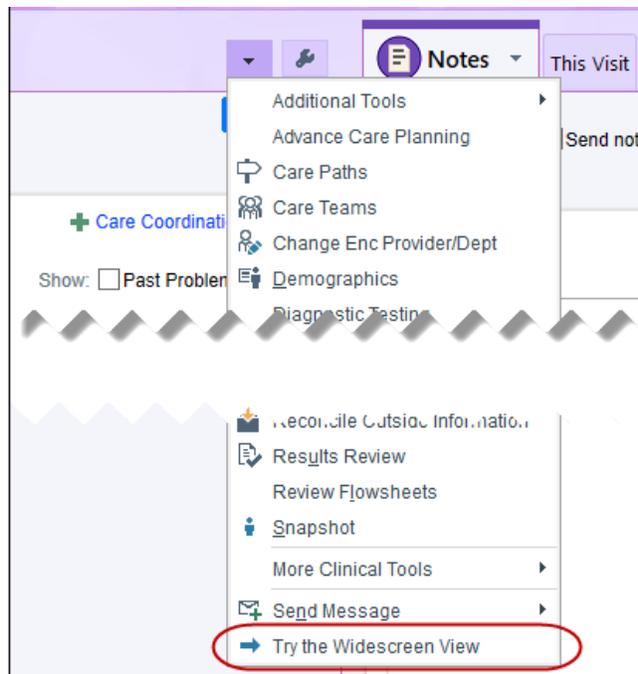

### Description:

- The widescreen banner that displayed across the screen as seen below will no longer be visible.

### How to:

1. To change to the widescreen option, go to the **More Activities** dropdown menu on the right side of the activity tabs.

New Look

## Refreshed Order Composer for Procedures

### Key Benefits:

- More accuracy and reliability
- More efficient

### Description:

- Substantial changes were made to the **Diagnosis Association** display and it will look very different.
- Smaller order composer changes include:
  - **CC Results** now matches what is in the **In Basket**.
  - Special requirements for blood orders appear as buttons instead of a selection field.
  - Overall placement of labels and fields is somewhat different from the **Order Composer** for medications.

## Change Layout of Work Lists and Reports in Imaging Activities

### Key Benefits:

- More accuracy and reliability
- More efficient

### Description:

- Change the layout of the work list and reports in imaging activities from two rows to two columns.

### How to:

1. Use **Layout** button and select the two-column layout.
2. **Layout** button also has a two-row option.

Reading Work List - Temporary Report - 1 out of 143 - Reading Mode: Single Select

Refresh Views **Layout** Reading Mode Study Review Study History Assign Quick Assign

## View Event Type and Order in Imaging Event Reports

### Key Benefits:

- More accuracy and reliability
- More efficient
- Time saver

### Description:

- A new column appears in the **Patient Events** report section that shows the type of event and associated order. Click the order name to open a report with more information.

## COVID-19 Status Columns Show Infection Dates More Reliably

### Key Benefits:

- More accuracy and reliability
- More efficient
- Time saver

### Description:

- **Infection Status Added** date appears on COVID-19 columns when the date comes from an infection record, infection from a patient record, lab result, screening form or the problem list.

A screenshot of a software interface showing a COVID-19 status column. At the top left, there is a red warning icon (two exclamation marks) followed by the text "COVID-19: Positive" in red. Below this, the text "COVID-19 (Confirmed)" is shown in blue with a small arrow icon. Underneath, it says "Added: 9/11/2020 by Infection Admin Control" in a smaller font. Below that are two blue links: "Resolve" and "Add: COVID- 19 (Suspected)", both with small arrow icons. In the top right corner of the screenshot, there is a red-bordered box containing the text "Infection Status Added 9/11/2020".

## Epic's Hyperspace

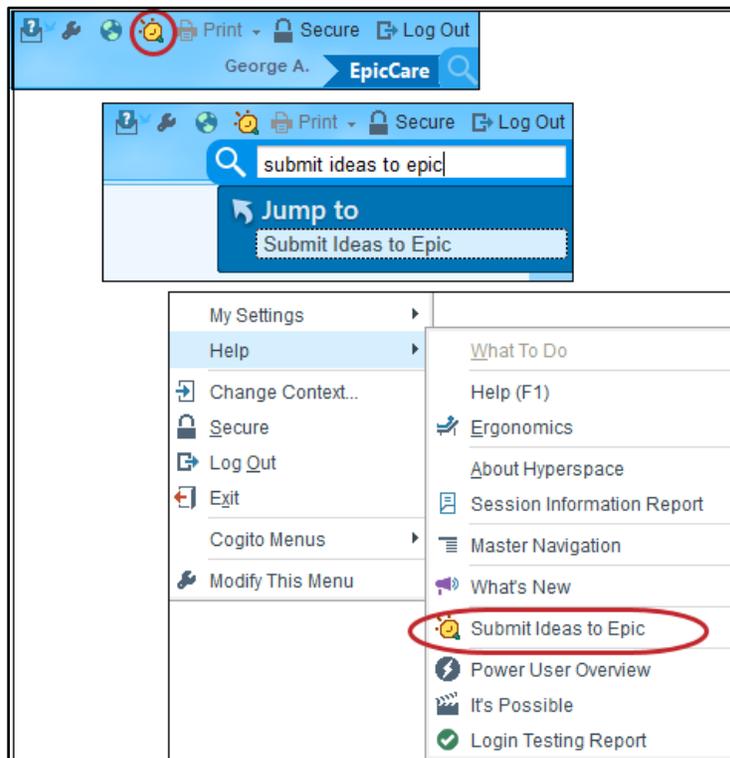

### Share Your Ideas with Epic

#### Key Benefits:

- Improved Communication
- More efficient

#### Description:

- Submit your ideas directly to Epic by clicking the lightbulb icon in the main toolbar.

## Colored Headers More Consistently Appear with the Fewer Colors Setting

### Key Benefits:

- More efficient

### Description:

- If you select **Display Fewer Colors** from the **My Settings** menu, you'll see more red, orange and yellow headers, calling attention to important information. You've seen colored headers for high-priority information, and this change makes the colored headers appear more consistent across activities.

The image displays two side-by-side screenshots of the Epic EMR interface to illustrate the 'Display Fewer Colors' setting. The top screenshot shows a 'Summary' view with a white header for 'Isolation and Infection Instructions'. The bottom screenshot shows the same view with the 'Isolation and Infection Instructions' header highlighted in yellow. A black arrow points from the white header in the top screenshot to the yellow header in the bottom screenshot. Below this, two 'Visit Report' screenshots are shown. The left screenshot shows a white header for 'Orders to be Acknowledged For Asap, Frank'. The right screenshot shows the same header highlighted in orange. A black arrow points from the white header in the left screenshot to the orange header in the right screenshot.

### Patient Photo or Initials More Obvious for Deceased Patient

#### Key Benefits:

- More efficient
- Improved communication

#### Description:

- When you open an **In Basket** message or the chart for a deceased patient, the circle containing the patient's photos or initials is grayed out and surrounded by a black border.
- You will notice the following indicators:
  - Patient photo appears in grayscale.
  - Patient's initials appear in a gray circle.
  - Circular border around the patient photo or initials is black.
  - **Deceased** appears in bold text under the patient photo or initials.

## F1 Help Activity Name Change

### Key Benefits:

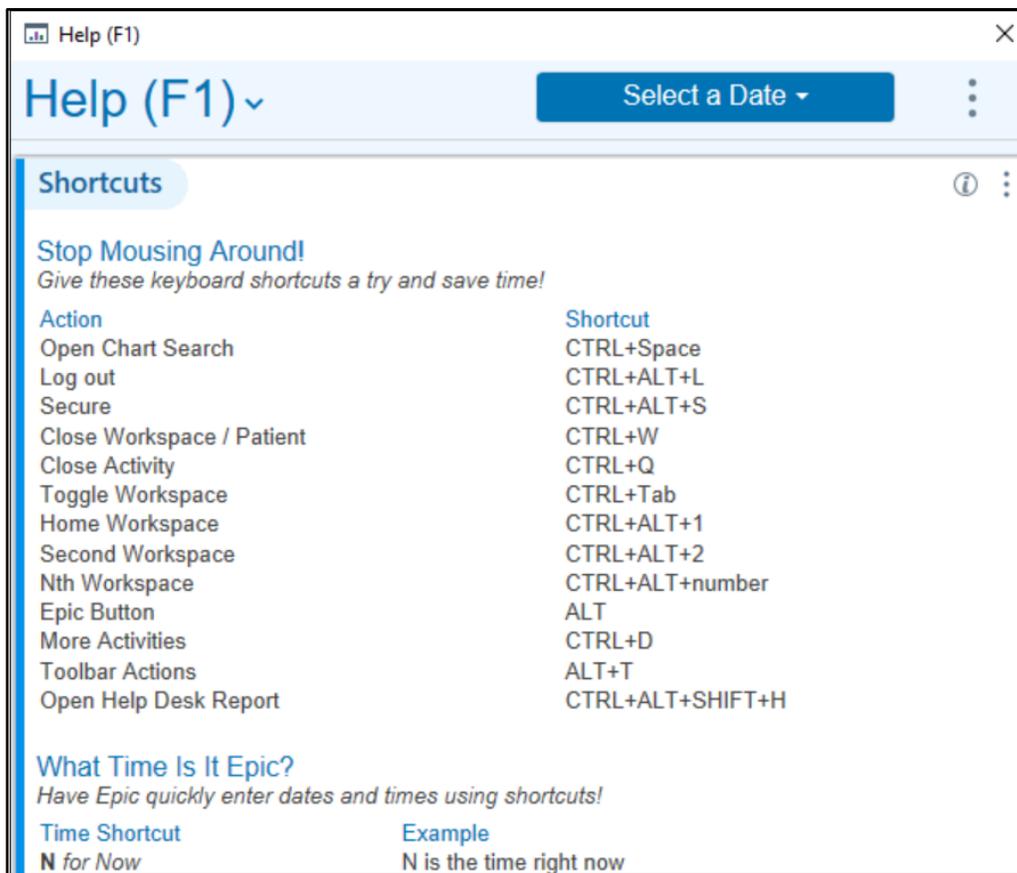

- More efficient

### Description:

- The **F1 Help** activity name changed to **Help (F1)**. This update emphasizes what you want when accessing the activity, and the name is more logical.

### How to:

1. Access **Help (F1)** activity by pressing F1 on your keyboard.
2. Access help thru the **Epic** dropdown menu.
3. Access help with using the **Chart Search** feature.

## Access Power User Resources

### Key Benefits:

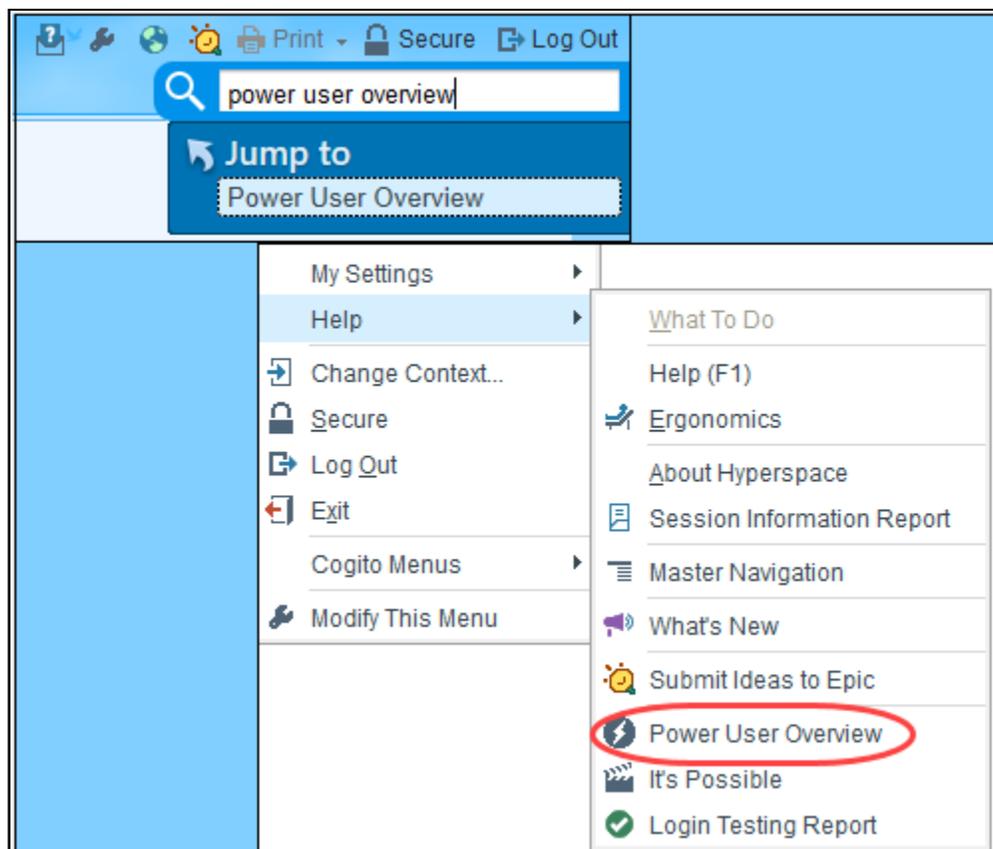

- Improved communication
- More efficient
- Time saver

### Description:

- Easy access to resources like the **Power User Overview** video and **Power User** training registration links.

### How to:

1. Use **Chart Search** and type in **Power User Overview**. Select **Help F1 Menu** and choose the **Power User Overview** option.

## Toolbar Buttons and Checkboxes More Visible When Selected

### Key Benefits:

- More efficient
- Time saver

### Description:

- Checkbox or button appears on many toolbars to show more visibility when a button is selected.

## Reports

### Filter Application Reports by Multiple Criteria

#### Key Benefits:

- More efficient
- Time saver

#### Description:

- Filter many imaging application reports, including the **Reading Work List**, **Study History** report, **Recent Exams** report and more, by multiple criteria for a column.

#### How to:

1. For example, on the **Status** report, click the **Study Status** column and select multiple statuses to display.

## Secure Chat

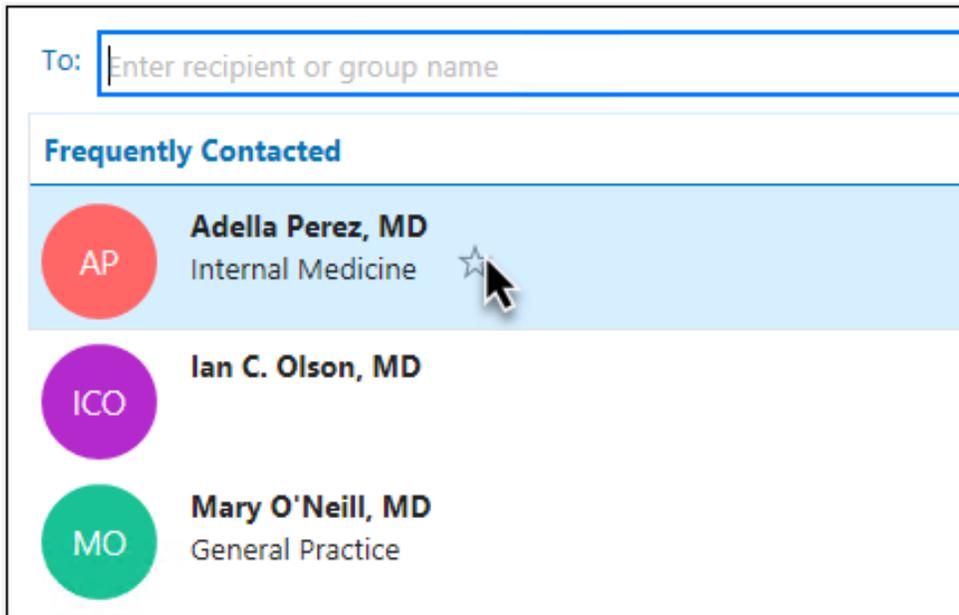

Set Favorites

### Key Benefits:

- More efficient
- Time saver

### Description:

- Add and remove individuals or groups as favorites by clicking the star icon. You can manage favorite contacts from a workstation or a mobile device.

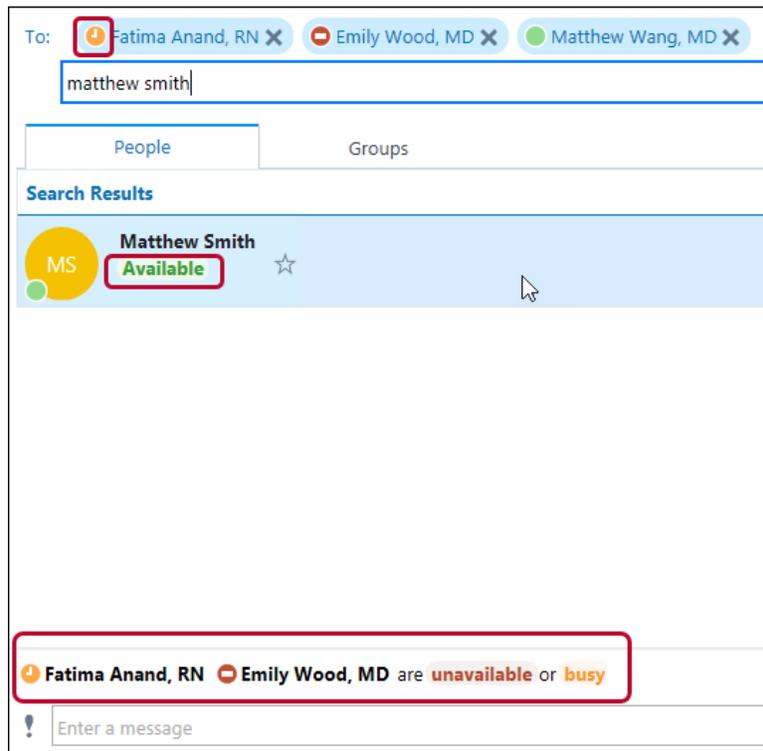

## See Availability More Prominently

### Key Benefits:

- More efficient
- Time saver

### Description:

- Availability status stands out more prominently. If someone is busy or unavailable, you can easily see it.

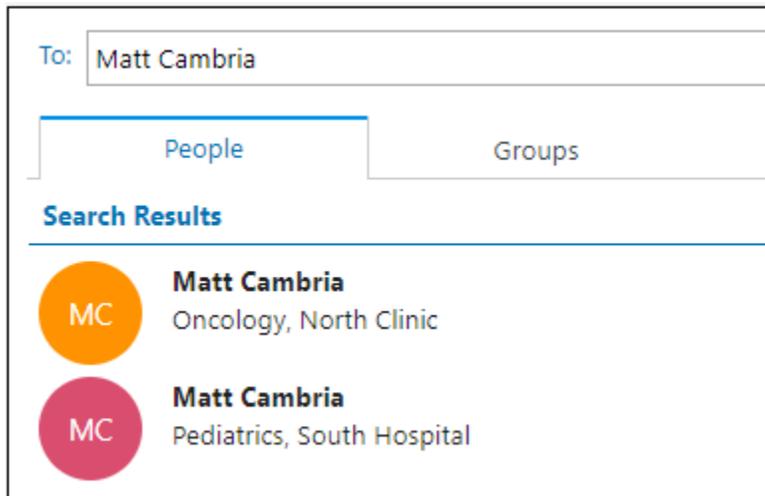

## More Information Shown to Differentiate Among Secure Chat Users

### Key Benefits:

- More efficient
- Time saver

### Description:

- Individuals' names, relationship to the patient and specialty will display, along with the last login department location beneath the name. This makes it easier to differentiate among colleagues with similar names.

## Smartlinks and SmartPhrases

### Add SmartPhrases to Your Notes Using SmartLists

#### Key Benefits:

- More efficient
- Time saver

#### Description:

- To speed up documentation, use **SmartLists** to add **SmartPhrases** to your notes and other documentation.
- For example, you might create a **SmartList** that includes all the **SmartPhrases** you use to document your most commonly performed procedures. Doing this, you can quickly pull in any of the **SmartPhrases** by adding the same **SmartList**.

User SmartList – sgnMyProc [12833]

## SmartPhrase Manager: New Look and Streamlined Workflow

### Key Benefits:

- More efficient
- Time saver

### Description:

- It's now easier to search, share and copy **SmartPhrases**.

### How to:

1. To open the **SmartPhrase** Manager activity, search for **SmartPhrase Manager** or **My SmartPhrases**.
2. To open a **SmartPhrase** from a list, double-click the selected phrase.
3. To create a new **SmartPhrase** from a list, click **New User SmartPhrase** (previously named **New**).
4. To launch the **SmartPhrase Lookup** window, click **SmartPhrase Lookup** (previously named **Open**).
5. To sort a column, click the column header.

A screenshot of the Epic SmartPhrase Manager interface. The window title is "SmartPhrase Manager - MD, ROBERT SUTTON [50001]". The interface has a left sidebar with navigation options: SmartTexts, SmartLists, SmartPhrases, Manage Phra..., SmartLinks, and Find SmartLinks. The main area shows a filter bar with "Level: User" selected, and tabs for Profile, Department, Location, and Facility. A search box contains "MD, ROBERT SUTT". Below the filter bar are action buttons: "+ New User SmartPhrase", "Edit", "SmartPhrase Lookup", "Share With", "Copy To", "Remove From List", and "Delete". A search box on the right says "Search: Search Current List". A table lists SmartPhrases with columns for Name, Description, Editors, and ID.

## More SmartLinks Available in Study Notes

### Key Benefits:

- More efficient
- Time saver

### Description:

- Quickly add details to your study notes using these additional **SmartLinks**:
  - IMGEXAMDATE –end exam date
  - IMGREADRAD –reading physician
  - IMGOSQA –order-specific questions and answers
  - IMGUNSCHEDULED –unscheduled orders
  - IMGBEGINEXAMQA –begin exam questions and answers
  - IMGENDEXAMQA –end exam questions and answers
  - IMGRELPRIORS –relevant priors

## Storyboard

### New Demographic Information

#### Key Benefits:

- Improved communication
- More efficient
- Time saver

#### Description:

- Easily access more demographic information when hovering over a patient's name at the top of **Storyboard** in a clinical and HIM (#1 pictured) or patient access (#2 pictured) setting.
- Look for some of these new items, if they are documented for the patient:
  - Patient Contact
  - Time of Birth, until a baby is one month old
  - Written and Spoken Language (clinical and HIM only)
  - Unit (clinical and HIM only)
  - Race and Ethnicity (clinical and HIM only)

### See Admission Time

#### Key Benefits:

- Improved communication
- More efficient
- Time saver

#### Description:

- You can see a patient's admission time, in addition to the date when you hover in **Storyboard**. The time appears for the hospital admission and inpatient admission.

**Admitted - 4/30/2020 1001**

Admitting provider: Hanna Pan, MD

Total duration of encounter: 11d

Admitted to inpatient: 4/30/2020 1241

Inpatient length of stay: 11d

**Current Department - EEN ICU DEPT**

Patient class: Inpatient

Time in unit: 11d

## Storyboard Vitals Show BMI and Growth Percentiles for Children

### Key Benefits:

- Improved communication
- More efficient
- Time saver

### Description:

- To help you quickly review important vitals for children, **Storyboard** now shows BMI and growth percentiles for patients younger than 21.

BP: 120/80 (93.60%/ 97.42%),  
Height: 5' (99.84%),  
Weight: 90 lb (95.62%),  
BMI: 17.58 kg/m<sup>2</sup> (74.92%)

## Access to Discharge Information

### Key Benefits:

- Improved communication
- More efficient
- Time saver

### Description:

- Access a patient's discharge planning information from **Storyboard**.

**SELECTED VISIT**  
Admitted: 10/21/2020 (1 d)  
Expected Discharge: 2 d  
No assigned nurse  
Pt Class: Inpatient  
Auth/Cert: None

**Admitted - 10/21/2020 1436**  
Admitting provider: Epi, J.  
Total duration of encounter: 1d  
Admitted to inpatient: 10/21/2020 1436  
Inpatient length of stay: 1d

**Current Department - Medical Surgical**  
Patient class: Inpatient  
Service: Internal Medicine  
Time in unit: 0d

**Discharge Plan** ↗  
Expected discharge: 10/24/2020 (2d)

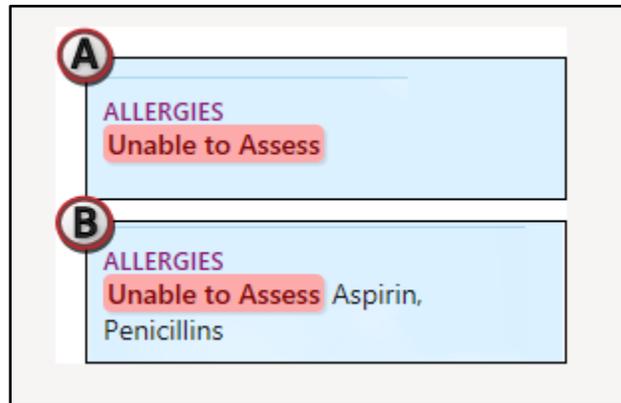

## Unable to Assess Allergy Review Status: Highlighted

### Key Benefits:

- Improved communication
- More efficient
- Time saver

### Description:

- When **Unable to Assess** patient's allergies is documented in a chart, **Unable to Assess** appears in red highlight.

## Storyboard Differentiates Older Updated Results from Newer Results

### Key Benefits:

- Improved communication
- More efficient
- Time saver

### Description:

- When hovering over new results, view the updated date and time for each result in the **Updated** column.
  - Date and time may reflect when something was updated that wasn't clinically relevant, like the instant an automated lab system re-sent results for an order that was already final, even if the results hadn't changed.
- Updated results collected or performed more than 30 days ago appear as follows:
  - For inpatients, results appear in a separate section called **Older Results** with a note of the recent update, but collected or performed more than 30 days ago. The collected date is also highlighted for each result and appears with an information icon.
  - For ambulatory patients, the collected date is highlighted and appears with an information icon. The **Updated** column states that the results are more than 30 days old. Hover over the column to see the update.

The screenshot shows the Epic interface. On the left, a sidebar titled 'NEW RESULTS (LAST 36H)' contains 'Lab (2)' and 'Imaging (1)'. The main content area is titled 'Older Results' and is sorted by update time. A yellow warning box states: 'These results were recently updated but were collected or performed over 30 days ago.' Below this, a table shows the following data:

Updated	Order
11/09/20 1409	X-RAY FOOT 3+ VW Performed: 07/06/20 0000   Preliminary
