For Everyone

View Your COVID-19 Vaccination Records on Apple Health

Sync Your MyChart Account with Apple Health App

You can quickly access your COVID-19 vaccination and other HM health records in the **Apple Health** app when it's synced with your **MyChart** account. If you're already using the app to track your physical activity, nutrition, mindfulness or sleep, this provides an easy way to see your **MyChart** data without opening an additional app.

All COVID-19 vaccines provided at an HM facility are included in your health record.

- **Existing patients:** View this in MyChart through the **Immunizations** tab.
- **New or non-HM patients:** Sign up in **MyChart** to view this record.

How to sync your MyChart account

1. From your mobile device, open the **Apple Health** app.
2. Select **Health Records**, then click **Get Started**.
3. Select **Houston Methodist** from the list of hospitals.
4. Follow the prompts to log in to your Houston Methodist **MyChart** account.

Once the account is synced, you'll find COVID-19 vaccination details under **Browse** > **Health Records** > **Immunizations**.

Existing HM patients - how to create a new MyChart account:

- Request an activation link from an HM clinic or patient access representative. You can also call the HM Customer Service team at **832.667.5694**.
- You should receive a message via email or text with an activation link.
- Click the provided link and follow the instructions to create your account username and password.

New or non-HM patients - to create a new MyChart account:

- Visit mychart.houstonmethodist.org and select **Sign Up Now**.
- Under **No Activation Code**, click **Sign Up Now**.

- Click the **New Patient** sign up method and complete the form.

For more information, call the HM Customer Service team at **832.667.5694.**
