Nuance PowerMic Mobile (iPhone)

Before you begin, make sure you have your Apple ID and password ready.

1. Go to the **App Store** on your iPhone.

2. Tap the **search button (magnifying glass)** at the bottom, right-hand side of your iPhone, and search for the **Nuance PowerMic Mobile** app. Download the app.

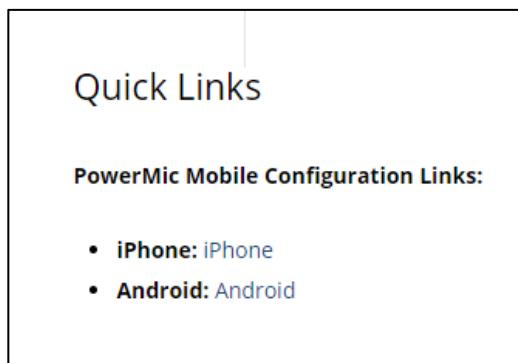

3. On your iPhone, open **Safari** and type this URL <https://it.houstonmethodist.org/dragon/>. The following Dragon resources/training page will open.

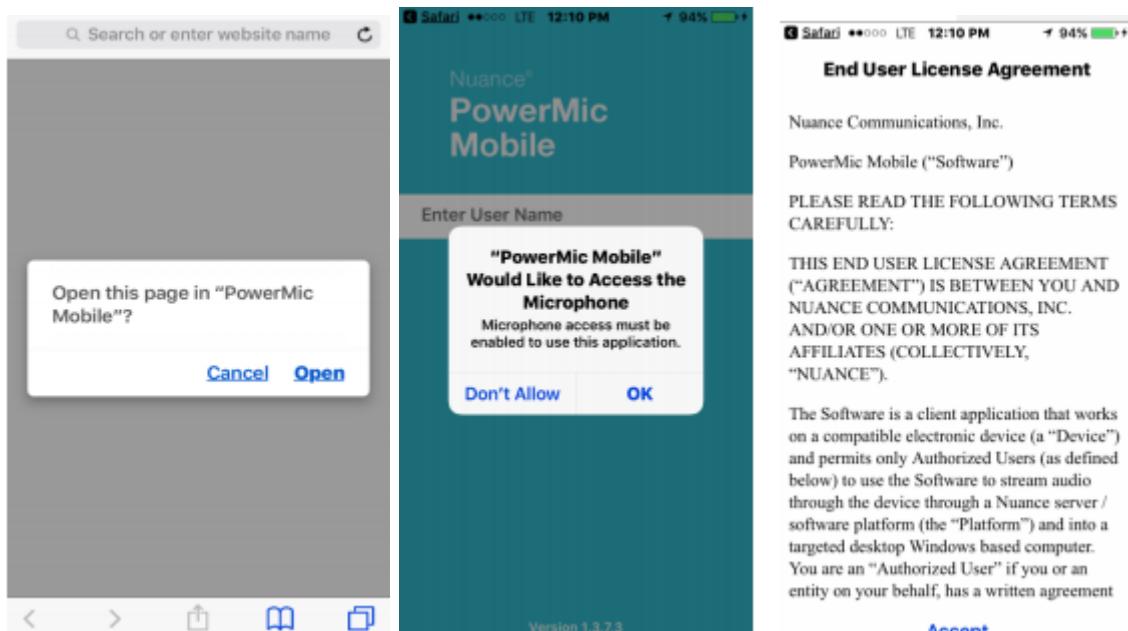

A screenshot of a website for Houston Methodist. The top navigation bar includes links for PHYSICIANS, STAFF, LEADERS, EPIC UPDATE, and DOWNTIME. The main content area has a red header that reads "Dragon Voice Recognition". Below this, a section titled "Dragon Medical One" is shown. It includes a brief description: "Dragon Medical One gives you the freedom to dictate where you want, enjoying instant transcription both on and off the Houston Methodist network." Under this, there is a "General Resources" section with a bulleted list of links: Adding and Training a New Word (e.g. COVID-19), Sound Settings for PowerMic and Video Visits, Create Auto Text or Voice Command, Create step-by-step Dragon commands (with sub-points for Frequently used Medical History diagnoses, Problems frequently added to the Problem List, Orders, SmartPhrases, DMO Quick Reference Commands, DMO Quick Reference Guide, and DMO-End User Guide).

4. Scroll to the bottom of this webpage and go to **Quick Links**.

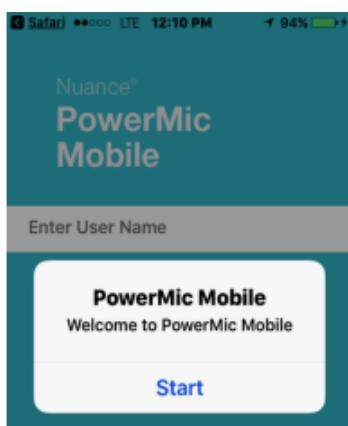

5. Click on the **PowerMic Mobile Configuration** link for iPhone to complete the setup.

- a. Once you click on the link, it will ask to **Open this page in PowerMic Mobile?** Tap **Open**.
- b. Tap **OK** to enable access to microphone.
- c. Then **Accept** the License Agreement.

6. Tap **Start**

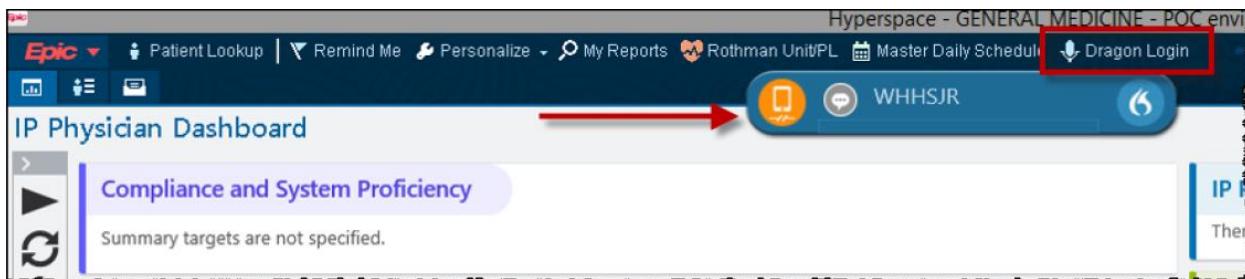

7. Leave **Profile 1** in the first field, and enter your HM network ID/Epic user ID in the **Enter User Name** field.

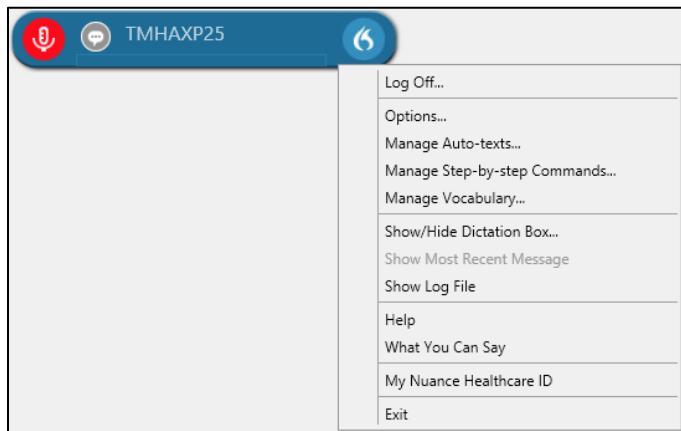

a. Tap **Log In**.

8. The **PowerMic Mobile** app will begin searching for a workstation to pair with. Make sure you are logged into Epic and have launched Dragon from the **Dragon Login** button on the **Epic toolbar**.

9. Make sure the **icon** on the **DragonBar** is a **cell phone**. If it's a **red microphone**, you must click the **DragonBar Menu (flame)** and hit **Log Off**.

10. In a few seconds, a window or splash screen pops up that allows you to change the mic source to **Nuance PowerMic Mobile**.

11. Once you've logged into Dragon on your computer using the mic source as **Nuance PowerMic Mobile**, the app on your phone will pair with the computer and the **orange cell phone** icon on your **DragonBar** will turn **red**.

12. The app opens on your phone. Tap the **mic** button on the app to begin dictating. Once you tap the **mic** button on your app, the **red cell phone** icon on your computer will turn **green**. Start dictating with the cursor in the field/note section where you want the text to appear.
