 - Real-time eligibility notifications
- Over 21 highly developed specialty offerings

COMMUNITY CONNECT

Frequently Asked Questions

Do I have to use Epic's practice management software?

- Community Connect provides two options:
 - Option One: Use existing billing service provider with an optional daily billing extract.
 - Option Two: Use Epic's practice management software.

Will Houston Methodist provide billing services?

- Houston Methodist does not offer billing services, but the practice management software enables integrated practice billing and additional revenue cycle needs. Additional third-party claims administration and credit card processing contracts may be required.

How long does it take to implement Community Connect?

- Implementation takes approximately 19 weeks from contract signing.
- You are assigned a Community Connect liaison to guide you through each step of the process.

How long is the contract?

- The initial contract term is three years with an annual renewable option.

What if I want to personalize my system?

- Each specialty is custom built to specific configurations. During training, we'll help your staff personalize their preferences.

Who can I contact to learn more?

- Contact the Houston Methodist Community Connect team at HMCCommunityConnect@houstonmethodist.org.

Program Cost

How much does Houston Methodist Community Connect cost?

- Houston Methodist deeply subsidizes the cost of Epic and required third-party components to offset your costs based on Stark and EHR Safe Harbor laws.
- You'll pay a reasonable one-time license and implementation fee and monthly support fee per provider.
- Contact us today to discuss pricing options specifically tailored for your practice.

What's included in the one-time license and implementation fee?

- Epic licensing fees.
- Required third-party application software fees.
- Implementation fees associated with initial training and go-live support.

COMMUNITY CONNECT

Frequently Asked Questions

What's included in the monthly support fee?

- Dedicated Community Connect application support team.
- All system maintenance and upgrades.
- Houston Methodist's 24/7 Help Desk.

How is a provider defined?

- Providers practicing half time or greater are eligible to participate in Houston Methodist Community Connect.
- Providers practicing less than half time are offered a reduced rate.

Are there fees for providers who bill under another provider (e.g. physician assistant or nurse practitioner who bills under an MD or DO)?

- These clinicians are considered providers and are also charged a monthly subscription fee.

Training and Support

Will my practice receive Epic training?

- Training is required prior to receiving system access. Houston Methodist provides:
 - Classroom training.
 - A practice system called Playground.
 - A proficiency checklist, ensuring your practice is prepared for go-live.

Will go-live support be provided?

- Houston Methodist provides onsite support during implementation.

Data Security and Ownership

Who really owns and manages my patients' data?

- Patient data is associated with the physician and practice providing the patient's treatment, accessible only to those involved in the patient's care.
- Epic has an audit trail for legal and tracking purposes.

Where is EHR data stored?

- EHR data is stored in Houston Methodist's secure data center, maintained 24/7/365.
- The data center is designed for high availability and to withstand natural disasters and other technical issues.
- Disaster recovery procedures are in place, ensuring data is secure and accessible by those who need it, when they need it.

COMMUNITY CONNECT

Frequently Asked Questions

What happens if there is a separation/termination of Community Connect?

- Houston Methodist will:
 - Help your practice make an orderly transition of EHR services.
 - Extract practice data to an Epic standard format, paid for by your practice.

Are data conversion services available?

- Patient data transfer from your practice's previous EHR may be available at an additional cost.
- For more information, contact the Houston Methodist Community Connect team:
HMCCommunityConnect@houstonmethodist.org.

Technical Specifications

How will I access Epic in my practice?

- Epic applications are hosted by Houston Methodist, accessible via the Houston Methodist Apps Center, anywhere you can access the internet.

What is the optimal internet speed required to run Epic?

- A minimum internet speed of at least 50Mbps to 100Mbps is required.
- A detailed technical assessment is part of the initial evaluation.

What hardware do I need to run Epic?

- Detailed hardware and network requirements are provided during the initial assessment.
- The hardware required to run Epic must be in place prior to implementation.
