

Knowledge Base Articles (KBAs) Style Guide

Category	Rule	Examples
Fonts	<ul style="list-style-type: none"> The KBA template within ChangeGear only has one font – MS Sans Serif. Font size should be 12 point. Bold application or system names, flowsheets, buttons and any content a user needs to enter. Keep your KBA consistent. If a font changes when you import text from Word, please be sure to change it to match. 	
Content	<ul style="list-style-type: none"> Avoid technical jargon. Remember, the audience is our end users – providers, clinicians, staff and leaders. Make sure it's easy for everyone to understand. If you're including steps, make sure they are descriptive and complete. It should be easy to follow exactly what to do. Be sure you get a subject matter expert (SME) review to validate the steps. 	
Title	<ul style="list-style-type: none"> Use a topic that makes sense to end users. Avoid using questions. Capitalize the first letter of each word in the title. 	Set up VPN for Remote Work
KB Team	<ul style="list-style-type: none"> If you don't see your team's name on the drop-down, type in the first few letters in the field to populate the field. KB Team field only displays 100 names in the drop-down. 	
Keywords	<ul style="list-style-type: none"> The use of keywords is vital for everyone to find the KBAs when they are searching for a topic they need.
