

GENOME MEDICAL GENETICS REFERRAL

Genome Medical and Houston Methodist have partnered together to deliver a new way for you to access high quality, personalized genetic care.

HOUSTON METHODIST PRIMARY CARE GROUP:

Houston Methodist Primary Care Group is leading medicine in our communities and expanding every day. From our patient-centric approach to our dedication to innovation and access, our growing network of 160-plus physicians is providing top-quality care to patients at 40 locations throughout the Houston metro area. As part of the vast Houston Methodist Hospital system, we have the resources to enact innovative strategies and technologies to support our growing organization. From centralized scheduling and referral management to physician education and engagement, we are dedicated to optimizing the health care experience for our physicians, staff, and above all, our patients.

WHO IS GENOME MEDICAL:

Genome Medical is a nationwide medical practice specializing in genetics. Our clinical team includes genetic counselors, medical geneticists, pharmacists and other specialists who provide care across all 50 states. We provide telehealth appointments with genetic experts through video or phone consultations. The typical appointment takes about 30 minutes, and we can usually see you within 1-2 business days.

WHAT TO EXPECT DURING YOUR APPOINTMENT:

- Review the reason you were referred to Genome Medical
- Answer important health questions you have
- Collect your personal and family medical history
- Review any genetic testing that has been performed
- Assess your risk for a variety of inherited conditions
- Review if and how genetic testing may help you answer your health questions
- Facilitate and authorize genetic testing when determined appropriate

GENOME MEDICAL GENETICS REFERRAL

HOW WILL MY APPOINTMENT BE SCHEDULED:

Genome Medical will be contacting you to schedule your appointment. If you don't receive an email or call from Genome Medical within 2-3 business days, please call 877-688-0992 to schedule with a clinical care coordinator.

USEFUL INFORMATION FOR YOUR APPOINTMENT:

If you or a family member have had genetic testing, please submit a copy of your result (or your family member's result) through the Genome Medical patient portal; you'll have access once your appointment is scheduled. In addition, you will be asked to complete a questionnaire about your personal and family health history and what health information you hope to learn from your genetic counseling consultation before your appointment. It may be helpful to talk to other family members to better understand any health conditions in the family, as well as the age that your relatives were diagnosed. If you have any questions or need to change your appointment, we're here to support you.

GENOMIC RESOURCE CENTER:

Visit your Genomic Resource Center at www.genomemedical.com/houstonmethodist to learn more about what to expect during your genetic testing journey, view educational videos, read blogs about genetic testing and get answers to your questions. You will have access to contact Genome Medical via phone, email and chat.
